## BAKING FOR GOOD

*Delicious desserts that can make a difference*

Talk about a fresh concept: Online sweet store Baking For Good is our new obsession. Not only are all the treats organic, all-natural and delivered fresh to anywhere in the country, but (this is the best part...) the company has partnered with more than 100 national non-profit and community organizations and donates 15% of every purchase to a charity of your choice.

*Baking For Good wedding cookies and spring-themed sweets*

Here's how it works: Simply log onto [bakingforgood.com](http://bakingforgood.com) and pick your treats (organic brownies, iced or regular cookies, or allergen-free snacks like caramel corn, gluten-free brownies or dairy-free ginger snaps), then pick your charity and place your order. If it's a gift for one of the many people who've helped you plan your wedding, the recipient will receive a note stating what charity you chose. Each purchase is delivered in beautiful, eco-friendly packages directly to their door.

Our favorite options (of course!) are the bridal-themed iced cookies — perfect for showers, luncheons, goodie bags or favors at the wedding. With three bridal designs — a wedding dress, a cake or a champagne glass — this is one take-home gift that won't make it uneaten out of the parking lot.

Good for your guests, good for the earth and good for people in need. Now that's really delicious.
